

# Limiting Miles.

## Precision Technology.

LLumar Paint Protection Film is manufactured with dual functioning technology that maximises durability and provides a high gloss shine. And you don't have to worry about the film yellowing over time.

Using the proprietary LLumar PrecisionCut™ System, LLumar Paint Protection Film patterns can be computer-generated and cut precisely to factory specifications to ensure a perfect fit for your vehicle.

LLumar Paint Protection Film for bonnets, hoods, mirrors, bumpers, fenders, radiator covers, door handles, door edges, and more.

Example: LLumar Paint Protection Film coverage is indicated in red.

## More about the LLumar film portfolio.

Solutia Performance Films offers a complete line of high-performance LLumar brand films to protect and improve your home, business or vehicle.

With the most comprehensive technical service and application in the industry, the appearance and durability of LLumar products is unmatched.

This, along with a superb reputation for quality and innovation, has made it the best-selling brand in the world.

## The manufacturer of LLumar products.

Solutia Performance Films is the world's largest manufacturer of high performance films. Our enviable track record in product development, technological advances and world-beating quality have been, and will continue to be, the key to our success.

In Europe Solutia Performance Films is certified by the SGS United Kingdom Ltd. according to ISO 9001:2008, certificate No. GB95/5381.

Virtually Invisible **Paint Protection** Film

## Limit Blemishes without Limiting Miles.

**LLumar Paint Protection Film helps to preserve your vehicle's good looks without changing its appearance.**

With industry leading optical clarity, our paint protection film helps paint colours remain true, while creating a virtually invisible shield to help protect your vehicle. Defend your vehicle's vulnerable areas against abrasions, nicks, scratches from insects, small road debris, and winter sand and salt for year round protection.

### **Ultimate Defense** against road hazards.

Clearly, LLumar Paint Protection Film provides the best option for keeping your vehicle in prime condition. And it is certain to enhance its quality and resale value for years to come.

Without Protection

With LLumar Paint Protection Film

### **Professionally** installed.

To ensure lasting quality, all LLumar Paint Protection Film is professionally installed by factory trained and qualified dealers.

While LLumar Paint Protection Film is extremely durable, it won't damage the paintwork it protects — even if you decide to remove it.

Help protect your vehicle during your next journey with LLumar Paint Protection Film.

### Performance **guaranteed.**

With a five-year limited manufacturer's warranty, LLumar Paint Protection Film is warranted against cracking, peeling or bubbling\* - all common problems associated with inferior films.

### **Care** instructions.

LLumar Paint Protection Film is recommended for factory finished paint. Regular waxing is required to maintain the film's performance and lustre. Allow 30 days before cleaning. Use warm soapy water to clean the film's surface, allow to dry, and then wax the surface. Do not use high pressure sprays close to the film's surface and edges. Standard car washes should present no problems with professional film installation.

\* When installed by a LLumar professional installer and used with proper care. For complete warranty details, visit [www.llumar.com](http://www.llumar.com) or ask an authorised LLumar dealer.
